## Enhance your Outdoor Experience

Time spent outdoors with friends and family create precious memories. The sounds of the crackling bbq, the feel of the fresh air on your skin, as you relax in your favorite chair under the old oak tree. Unfortunately though, things from uneven ground, wet spots, mud, dirt, grass and even Nosy neighbors or passers by can ruin an otherwise special time.

Introducing the Sunspace Sunlounge. Whether by the lake, near the tree line, in the yard or on the beach, the Sunspace Sunlounge is truly versatile. you can create a private oasis for you, your friends and family to gather and enjoy.

## Quality By Design

Intricately designed using our well known quality products, it features a SunWall, (acrylic privacy and wind-blocking panels), set in to place in a U shape on top of our aluminum frame & decking.

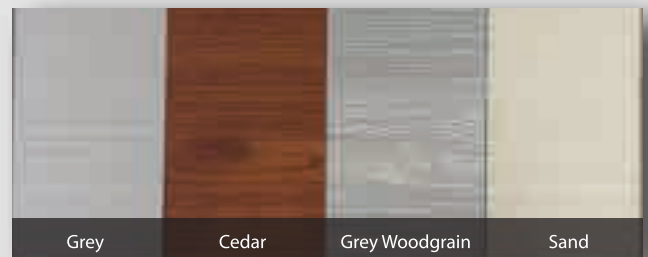

Impervious to weather and maintenance free, the non-slip aluminum decking also ensures that there will be no worry of grass or weeds growing through the gaps in the flooring. Additionally, the opaque acrylic panels provide privacy, while still allowing sunlight to illuminate the acrylic panels and make it a bright space.

## AlumaDeck

Being the most versatile choice when it comes to decking, Aluminum allows our product to be watertight, slip and weather resistant, without sacrificing strength or quality. Essentially maintenance free for the course of its life. AlumaDeck will not rust, crack, fade or degrade from the elements or UV exposure like wood, plastics or composites do. Being a thermal conductor, it also does not hold heat like other materials, always feeling cool to the touch and is fire safe. Best of all it's Green! Free from harmful toxins; it will not impact the environment and can be easily recycled. Suitable for home, cottage or commercial use, AlumaDeck is guaranteed to outlast any wood, membrane or plastic based products.

# SunWall Privacy Screen and Wind Break

Your outdoor space is the place where you come to relax. With privacy screens & windbreaks, your oasis becomes your own private area, away from the neighbors or the passersby. An outdoor oasis is your sanctuary, ensure a higher level of comfort with stylish architecture for your privacy and enjoyment.

Our privacy walls and windbreaks do not darken, but the opposite, they brighten the area and are maintenance free for years to come.

The Sunspace SunLounge is a Fully-Manufactured kit, and can be completely installed by trained professionals in half a day or less. With its flexible design, the entire unit can be picked up, (With the help of a few friends), and moved around your property as needed. Included with every SunLounge comes with a 10-year warranty on both the decking and railing systems.

There is a growing trend to expand your outdoor space. Whether by the lake, near the treeline, in the yard or on the beach, you're likely to find some sort of sitting area typically made out of wood, concrete or patio slabs. These are costly, requiring a lot of yearly upkeep creating more work than relaxation and often fixed in place once built, never moving, to your next favorite spot. Introducing the Sunspace Sunlounge. Intricately designed, impervious to weather and maintenance free giving you more time to enjoy with family and friends!
